PROFILE

A skilled and passionate web developer with expertise in Vue.js, Nuxt.js, and React.js. I have a strong background in front-end development and a proven track record of creating visually appealing and highly functional web applications. With a deep understanding of JavaScript and modern web development frameworks, I excel at translating design mockups into clean and responsive code. I am dedicated to staying up-to-date with the latest industry trends and best practices, ensuring the delivery of cutting-edge solutions.

WORK EXPERIENCE

Senior Web Developer

Devex It Enterprice   2020-2023

- I started as a senior Web developer at Devex It Enterprises and was exploring all the time new and latest web technologies.
- Developed and contributed to a food delivery and ordering application, leveraging Vue.js, Nuxt.js, and React.js. Implemented features such as menu browsing, cart management, order tracking, and secure payment integration.
- I have worked on Fitness app which is not a normal app like other fitness aps but with custom real time meetings, chat, screen sharing and Data transferring for custom made courses.
- Worked on that Fitness app on Trainer side as the side is like Udemy application. Implemented custom meetings, analysis, chat, and a huge course form.
- Played a very important role in G-O-D application which is a loan application with advance level of security and payment system. And cool idea that I have never seen on internet.
- Solved implementation issue's and Managed Project in ERP system of university of Okara.
- Developed an innovative skill roadmap application integrating interactive graphs, online videos, and lectures. Learning platform for users to visualize skill growth and access engaging educational resources.

Senior Frontend developer

Computer Friends It Services   2018-2020

- Contributed to the development of a news website using Vue.js, Nuxt.js, and React.js, ensuring a visually appealing and user-friendly interface.
- Played a key role in the development of a cutting-edge transportation app utilizing Nuxt.js,
- Savari is a Canadian website which allow it's users for booking luxury transportation. Help in creating Quote. Implemented HereMap, GetAddress, complex calenders and date and time pickers.
- Created Savari driver dashboard which is being used by multiple companies now a days in Europe.
- Helped managing more than 4 projects in 2 years.
